OTHER IMPORTANT INFORMATION

Northern Lights:

This program includes a special six-night Northern Lights Academy – which means that during 6 evenings there is a combination of presentations, lectures, a film and guided searches for the Aurora Borealis – the Northern Lights. All countryside hotels in this

program offer a Northern Lights wake up call for guests that register for that special service at the hotel reception. The Northern Lights Exploration series are designed to spend 6 evenings in the countryside to maximise the chances of seeing the elusive Northern Lights, still the tour is dependent on weather and therefore sightings are not guaranteed. The Northern Lights are in the northern hemisphere from September through April but are only visible when the sky is clear and free of clouds. Like many natural wonders, the Northern Lights are ephemeral – they may be visible, they may appear for a bit and then be gone (it is not a TV show that you can just turn on and off). But it is worth the patience which is much required. Because they are a winter event, you need to be prepared to wait outside while looking for them. It is best to dress very warmly, in layers, with good footwear, gloves, hats and whatever else makes you comfortable while you await patiently for this truly outstanding event. For the best photos, a tripod is recommended.

TOUR GUIDE VS. TOUR LEADER

Tour Guide:

Often locals with intimate knowledge of an area, its culture, and history. Their role entails providing commentary, routing the tour, and seeing that people have a good time. They are a licensed, qualified expert who supplies specific information on history, art, architecture and culture of the city/village/attraction in which he or she is guiding the tour. The guide meets the group at the required place and leaves the group at the end of the tour, they do not travel with the group.

Tour Leader:

An experienced person tasked with ensuring the smooth operation of tours, as well as providing practical support to passengers throughout the whole trip. Their role primarily includes assisting with accommodation, transportation between locations, and communication

IMPORTANT INFORMATION

with tour guides in each stop. A tour leader may provide general guidance around a city or village, and offer information on the place visited on the bus, however they are not required to have specific knowledge on art, architecture, or history. They are not allowed to provide a guided tour or commentary of a city/village/attraction once there and if caught doing so, can be fined.

Please note: Tour leaders/guides are not a standard inclusion in all travel offers. Tour leaders/guides will only be made available when particularly required to enhance the experience of the destination featured.

CLIMATE & AVERAGE TEMPERATURES

Thanks to the Gulf Stream, Iceland enjoys a moderate maritime climate: cool in summer and fairly mild in winter. It is an island in the North Atlantic, nestled against the Arctic Circle, so the weather is very changeable and visitors should be prepared for the unexpected. Normal winter temperatures, like October and November range between 0-5 °C. When it comes to Iceland's weather – the one thing you can count on is unpredictability. You never know what is going to happen next! A beautiful sunny day can suddenly turn windy and rainy – then it can all change again in a moment. You may experience every weather imaginable over the course of a few days, especially in late autumn and early spring. Important to remember when packing: Iceland is a very windy place! The best plan is to be prepared for anything and everything AND always dress in layers. The Icelanders have a saying: "there's no such thing as bad weather, just bad clothing."
